

Cascade Mfg Co Announces Product Expansion

Cascade Mfg Co is expanding product lines by beginning the production of steel wall panels. “Our expansion into production of steel wall panels will allow us to offer additional value to our customers,” states Tim Noonan, Commercial Division Manager for Cascade Mfg Co. Industry veteran Greg Schares (gpschares@cascade-mfg-co.com) has joined Cascade Mfg Co as wall panel division manager to assist with sales, operations and design.

Greg comments, “Steel wall panels may be load-bearing members but also are used as framing members between structural columns and beams. We are seeing growing interest as a means of maximizing labor costs.”

Cascade Mfg Co has over forty years experience in the design and fabrication of wood and steel components.
